NB I-215 to WB SR-210 Connector to Open in San Bernardino

Caltrans and MCM Construction will be opening the northbound I-215 to the westbound SR-210 connector on Thursday morning, 12/22/11. This opening comes 15 months ahead of schedule. MCM Construction and Caltrans have worked diligently to get this connector open as they recognize the importance to motorists.

This connector will reduce travel time as motorists will not have to exit the freeway in order to make this transition. It will also reduce traffic on local city streets.

The eastbound SR-210 to southbound I-215 connector is scheduled to open in March of 2012 at least nine months ahead of schedule.
